Personal Statement

As a recent graduate holding Bachelor of Commerce and Bachelor of Science degrees, I am enthusiastic about leveraging my diverse skillset and academic achievements in a professional environment. With a genuine passion for making a meaningful impact and a proactive approach to learning, I actively pursued industry experiences to cultivate a solid foundation that I am now eager to apply professionally. I am looking forward to leveraging my technical skills and finance knowledge and contribute to the industries.

Internships

Vector Limited

Auckland

BI Specialist

Mar 2023 – Nov 2023

- Spearheaded technical solutions as the Technical Solutions Lead in the Electricity Pricing team to optimize and integrate the pricing model.
- Introduced a Python program to analysts, automating the electricity pricing model and saving the team 11 months in the pricing process.
- Fostered a positive and efficient working environment, achieving outstanding results in hybrid work arrangements.

KPMG New Zealand

Auckland

UoA Micro-Internship Consultant (Remote)

Jun 2022 – Jul 2022

- Conducted analysis of the tourism industry in New Zealand and other top international destinations and identified vital value propositions to enhance customer attraction. Designed a sustainable tourist model leveraging New Zealand's strengths and weaknesses for future development.
- Led a 6-member team to give presentations to the client, successfully reorganized plans, and delivered project milestones promptly despite specific emergencies.

JD Group

Beijing

Supply Chain Finance Risk Analyst, JDT

Dec 2021 – Jan 2022

- Assisted data and risk analysts using data analysis engines in executing daily risk analysis and management using SQL codes for SME businesses, promptly reporting, and suspending financial services for entities violating risk control policies. Provided valuable insights in effective B2B and B2C communications.

- Supported seamless transitions to a new digital platform with new contract for over 1000 business owners, ensuring successful customer contract signoffs through effective communication and strategic collaboration while strictly adhering to privacy policies and maintaining the highest data security standards.

JD Group

Beijing

Data Analyst, Jingxi

Sep 2021 – Nov 2021

- Conducted comprehensive data analysis on the purchasing behavior of over 600,000 customers using the group-buying application Jingxi Pinpin, emphasizing B2C engagement. Produced detailed reports that dissected performance metrics across regions in Beijing and Hebei, unlocked the potential of further business development.
- Collaborated with the team to systematically compare periodic performances, contributing to the identification of new and effective promotional strategies and adjustments to KPIs.

China Construction Bank (New Zealand) Ltd.

Auckland

UoA Micro-Internship Consultant (Remote)

Jun 2021 – Jul 2021

- Performed analysis on the private investment in infrastructure projects in New Zealand and other developed countries in the past decade and advised suitable infrastructure projects for private investment in New Zealand.
- Led a 5-member team to present to the client, outperforming eight intern teams and earning a Highly Commended Certificate for outstanding achievement.

NxtStep

Auckland

UoA Micro-Internship Consultant (Remote)

Feb 2021 – Mar 2021

- Conducted in-depth market analysis of six domestic and international businesses in the recruitment industry, providing strategic recommendations for NxtStep's market expansion plan.
- Counseled technological advancements by advocating the implementation of an AI chatbot on the company website and streamlining operational processes by automating invoices.

Project Experiences

University of Auckland COMPSCI 399: Capstone Course

Auckland

Front-end Developer

Mar 2023 – Jul 2023

- Led a team of 6 to develop a showcase website. Designed a low-fidelity prototype as the final product's design for the team as a plan to follow.
- Developed an online portfolio for students to showcase their capstone projects as a front-end developer using coding languages, including HTML, JavaScript, CSS.

Voluntary Experiences

Study Group

Auckland

Student Ambassador

Aug 2021

- Served as a dedicated student ambassador, effectively communicating insights and experiences related to studying and daily life in New Zealand to over 50 agencies in China.
- Contributed to attracting international students to New Zealand by providing firsthand information and fostering positive engagement with key stakeholders in the educational sector.

Additional Skills

- Technical skills:** Microsoft Office Suite, Python, MySQL, MongoDB, HTML, Java, JavaScript, CSS, R, C#, C++, JSON, Blender, Figma, Tableau, PowerBI
- Languages:** Proficiency in English, native speaker of Mandarin, intermediate in Cantonese, and beginner in Spanish

Interests

- 3D modelling, kickboxing, skateboard
